Dear John

It is with pleasure that I write this testimonial for your product.

Vodusek Meats began using the Ezi-Turn pads to suit a Jost turntable in 1993. We are currently using the Ezi-Turn (part no. EZIJGL37) after market pads on our seven Jost Greaseless turntables because we find that they out perform the original pads. In our experience the life expectancy of the Ezi-Turn pads far exceed those of the genuine Jost product. Our drivers are happy with the constant feel in steering that the Ezi-turn product gives. We will never return to the greasy plate and its mess.

Regards,

Dick Hargrave
