Mr John Crewdson.
Ezi - Products.
Melbourne.

John

With reference to our conversation regarding Kalari P/L providing a testimonial on your Ezi-Turn turntable friction plates.

After seven years of experience with your plates on Holland FW3500, Prohitch 351, and the Euro model turntables, we are pleased to advise we are very happy with the performance of your product. Over the last three years we have tried Jost and Holland Low-lube turntable friction plates without success. We are currently using Ezi-Turn after market friction plates on Holland Euro recessed top turntable with good results. Some of the advantages of the Ezi-Turn plates are constant driver \ turntable friction feel, turntable area cleanliness, and lower maintenance.

We also look forward to doing trials with your Ezi-Turn plates on Holland's latest turntable with multi-bolt segments.

Ezi-Turn plates are now standard fitment on Kalari's entire fleet.

Regards,

Doug Drummond
Fleet Manager.
