Mr John Crewdson.  
Managing Director.  
J & H Plastics P/L.  
9 Heversham Drive.  
Seaford. Vic. 3198.

I wish to place on record our complete satisfaction with your  
EZI-TURN 5th Wheel Bearing.

The product has eliminated the grease which previously was pushed  
out from between the plates spilling onto the vehicle chassis  
then dispersed in our wash bays by high pressure cleaning. Not  
only was this grease an environmental hazard, it created a  
possible safety issue where our drivers could slip when walking  
in the wash bay.

Our vehicles now have consistent turning characteristics at  
minimal cost with no cleaning or environmental problems at our  
premises.

Wishing you continued success.

Yours sincerely,

IAN COOTES.  
CHAIRMAN.
